ALUCOMAXX

Qualidade máxima que se vê.

Linha Nano

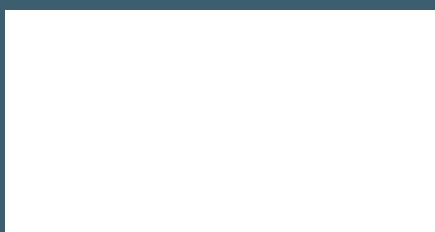

Quem procura unir modernidade, praticidade e resistência utiliza a linha Nano da Alucomaxx. O NANOMAXX, com qualidade superior aos materiais fabricados com resina PVDF, conta com o incrível sistema autolimpante em sua superfície, uma vez que é produzido contando com o sistema de Nanotecnologia e Effect Lótus. É garantia de que sua obra se manterá com o brilho e a limpeza original da cor, sem a necessidade de frequentes limpezas na fachada de seu empreendimento

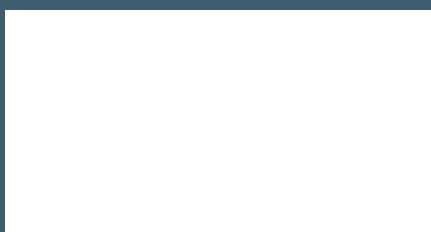

If you are searching for the perfect combination of modernity and resistance, you must choose Alucomaxx Nano line. Nanomaxx not only grants higher quality than the materials manufactured with pvdf resin but also features an outstanding self-cleaning system on the surface once it is produced according to nanotechnology system and Effect Lotus. It is a guarantee that your work will keep the brightness and cleanliness of the original color and the façade of your enterprise shall not require frequent cleanings.

Quien desea unir modernidad, practicidad y resistencia utiliza la línea Nano de Alucomaxx.
